Standard CERT Channels

The following frequencies should be stored in the memory of CERT radios

CHNL	Frequency (MHz) and offset	PL Tone (Hz)	Remarks
1	147.015 +	103.5	Resource Repeater (Used by ARES to find who is available for assignment.)
2	147.015		Repeater output frequency (Simplex). *Use when repeater fails*
3	146.940 -	123.0	Tactical Repeater. (Primary channel for CERT out-of-district communications).
4	146.940		Repeater output frequency (Simplex). *Use when repeater fails*
5	145.700		ARES Simplex Frequency
6	145.030		Packet frequency for emergency communications in Alameda County
7	146.505		CERT Simplex #1 (Use for in-district communications) *Ardenwood, Irvington, Warm Springs*
8	147.450		CERT Simplex #2 (Use for in-district communications) *Centerville, Niles, Mission San Jose*
9	146.520		National Calling Frequency (Simplex)
10	162.550		Bay Area Weather, Emergency Alerts

NOAA/NWS Radio Frequencies (MHz):

162.400, 162.425, 162.450, 162.475, 162.500, 162.525, 162.550
