	Shipping Group 3	Dep. Amt.	Qty
K4-F Ship group 3 deposit	Basic K4 transceiver provides 160-6 m, all-mode coverage; 100 W output; five receive RF sources; and wideband dual watch, allowing the main and sub receivers to be set for the same or different bands.	$0.00	
K4D-F Ship group 3 deposit	Adds KRX4 option, with a second set of band-pass filters and additional direct-sampling ADC module. This allows the two receivers to use different antennas – a requirement for diversity receive. Having two sets of band-pass filters also optimizes signal handling when the receivers are on different bands and/or antennas.	$0.00	
K4HD-F Ship group 3 deposit	Includes all the above, plus our dual superhet module, the KHDR4. Ideal for competitive field day, contesting, and DXpedition stations. Each superhet receive section includes two crystal filters: one SSB/data bandwidth, one CW bandwidth. The superhet's 8 MHz IF has an excellent dynamic range, so additional crystal filters are not required.	$0.00	
K4/10-F Ship group 3 deposit	Basic K4 transceiver provides 160-6 m, all-mode coverage; 10 W output; five receive RF sources; and wideband dual watch, allowing the main and sub receivers to be set for the same or different bands.	$0.00	
K4-F	See Above	$4,099.95	
K4D-F	See Above	$4,999.95	
K4HD-F	Deposit (Final Price TBD)	$4,999.95	
K4/10-F	See Above	$3,599.95
