SCCo Installer 164B
PackItForm 3.20 changes

Release	Description
3.20	CPOD Site Information: gives details of a Commodity Point of Distribution (i.e., a place where residents can go during a disaster to receive emergency supplies like food or water).
3.20	CPOD Commodities Update: sent as an update to an earlier CPOD Site Information form; gives revised information about the numbers and types of commodities available for distribution at a CPOD.
3.20	Damage Assessment: used to document the damage assessment of a building or similar property.
3.20	Notable Report: used to document an emergency situation.
3.20	Resource Request: replaces EOC-213RR as the form used to request resources from County OEM.
3.20	Road Closure: used to document a road closure.
3.20	Shelter: replaces OA Shelter Status as the form used to give details of a shelter.
3.20	Situation Report: replaces OA Jurisdiction status as the form used to describe a city's incident response to County OEM.
3.20	Windshield Survey: used to document a windshield survey assessment of a building, road, or similar property.
3.20	The EOC-213RR Resource Request form, OA Jurisdiction Status form, and OA Shelter Status form are no longer available in the Forms menu. Messages of these types can still be received and viewed, but they can no longer be sent.
3.20	When a Report Type changes between Update and Complete, enable or disable submit buttons appropriately.
3.20	Enable manual operators (not using Outpost) to edit, save and print a very long ICS-309 communication log.
