

# Hospital Net Script

Is there any priority or emergency traffic before we begin tonight's Hospital Net?

**[PAUSE]**

Good Evening! This is **[CALL]**, **[NAME]**, Net Control Operator for the monthly Santa Clara County Hospital Net on the N6NFI repeater, 145.230 MHz, minus offset with a PL of 100Hz.

[The alternate frequency is K6FB, 145.450 – 100.0]

This net meets on the 4th Wednesday of each month at 1900 hours local time for the purpose of training and to verify operation of amateur radio equipment installed at each local hospital.

**[PAUSE]**

This net is being conducted from **[HOSPITAL]**, part of the Santa Clara County Hospital Net. The tactical call sign for this station is **[HOSPITAL]**. My call is **[CALL]**.

**[PAUSE]**

I will now conduct a roll call of the hospitals. Please respond with:

- The name of the hospital you are currently operating from. If not at a hospital also state "Virtual". Virtual is highly discouraged.
- Your amateur call sign slowly and phonetically, and your first name
- The call signs and first names of any other operators present
- Indicate if you have traffic for the net
- If you have sent a packet message to: PKTHOS@W1XSC. **If not, why \***.
- If you are using hospital equipment. **If not, why \***.
- If you have a printer at the medical facility
- Have you printed something on the printer today? **If not, state why \***.

\* Note exceptions in space provided

**[Go to Hospital Roll Call sheet – next page]**

**[Go back to any station that had traffic and let them give their announcements]**

Is there any other business for the net at this time?

**[PAUSE]**

Thank you for your participation in the Monthly Hospital Net. We will now return the repeater to normal use. Our thanks to the owners and operators for use of their repeater this evening. This is **[CALL]**, **[NAME]** closing the monthly Santa Clara County Hospital Net.
