Packet Class Exercises

- Packet IIIA content workbook – Intro to Outpost and PackItForms
- Packet IIIB scripted exercise – check-ins, message passing, check-out
- Packet II scripted exercise – similar to IIIB but without Outpost!

- To get class credit, you had to do three things:
 - Show up for the class
 - Complete the class evaluation
 - Complete the homework

- While not part of the Packet II class, ~40% went on to do the November *Monthly Packet Message Passing Exercise* manually.

1. PackItForms

The screenshot displays a complex web-based interface for PackItForms. It features several overlapping windows, each representing a different form. The forms are titled as follows:

- Santa Clara County EOC Resource Request Form 213RR** (Version: 8/17 PIF: 2.3)
- Santa Clara OA Jurisdiction Status** (WebEOC: 20190327 PIF: 2.2)
- Santa Clara OA Shelter Status** (WebEOC: 20130814 PIF: 2.2)
- Allied Health Status Report Short Form (AEOC-9)** (Version: February 2018 PIF: 2.3)
- Santa Clara County RACES – Mutual Aid Request** (Version: 20220129 PIF: 2.3)

The interface includes various input fields, dropdown menus, and buttons for actions like 'Submit to Outpost', 'Submit via Email', and 'Reset Form'. A sidebar on the left contains navigation options such as 'MESSAGE FORM', 'Report Type', 'Contact Info', and 'Assignment'. The bottom of the screen shows a table for 'Amateur Radio Resources Requested' with columns for 'Qty', 'Role', 'Position', 'Preferred Type', and 'Minimum Type'.

14

County Use of PackItForms

- Santa Clara County PackItForms contains these public forms
 1. [XSC Check-In/Out Message](#) Form
 2. [XSC ICS-213 Message](#) Form adapted for Santa Clara County to transmit messages.
 3. [XSC EOC-213RR Resource Request](#) Form – Requests specific resources needed to support an emergency.
 4. [XSC OA Jurisdiction Status](#) Form – Reports jurisdiction emergency situation status to county OEM.
 5. [XSC OA Shelter Status](#) Form – Reports information and status on shelters opened in the cities to county OEM.
 6. [XSC Allied Health Facility Status](#) – Reports information & status of private Skilled Nursing facilities to SCC Public Health Department.
 7. [XSC RACES Mutual Aid Request](#) Form – Used by a jurisdiction to request a RACES Mutual Aid.
- The SCC Installer program automatically installs these packet forms along with Outpost.
 - Additional forms may be provided by your EC

18

18

2. Check-In/Out: PackItForms

- PackItForms now includes a Check-In/Out message form
 - Option for both check-in and check-out messages
 - Handles FCC call signs and Tactical Calls
 - Correctly formats the subject line and message body

19

2. Check-In/Out Messages

- General rules during field assignments
 - Check in and out using your assigned Tactical Call, not your FCC call
 - Check-in as soon as the station is ready
 - Check-out before shutting down the station using your *Tactical Call*
 - Always send as plain text messages
 - Always use [HandlingOrder] = “_R_”
 - Handling Order = R (Routine)
 - Always follow the standard subject line format
 - With specific check-in/out details for subject and message body

20

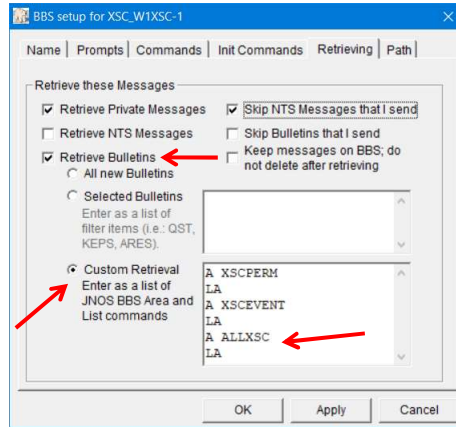

20

3. Outpost is Pre-Configured for SCCo Notices

- The SCCo Packet Installer pre-configures Outpost to download SCCo notices
 - XSCPERM
 - XSCEVENT
 - ALLXSC
- In Outpost:
 - Setup > BBS, Retrieving Tab
 - Check “Retrieve Bulletins”
 - Check “Custom Retrieval”
 - Custom Retrieval:

```

A XSCPERM      (Area)
LA             (List All)
A XSCEVENT    (Area)
LA             (List All)
A ALLXSC      (Area)
LA             (List All)
    
```

21

21

3. Using City Bulletins

Setup

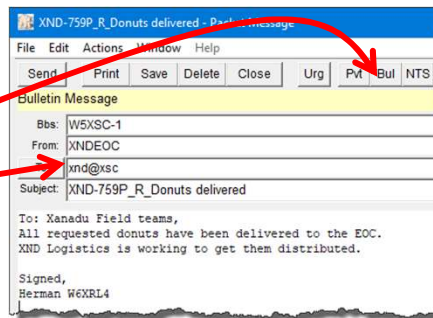

- Setup > BBS > Retrieving
- Change the LA command to L>
- Add your city's three char prefix (ex: "XND", "SJC", "MTV", etc.)

NOTE: only one City entry is allowed.

Create, send a city bulletin

- Start a new message
- Click the “Bul” button
- Address it to “xnd@xsc”
- Enter your message and click Send
- Addressing it to @xsc distributes to all XSC (Santa Clara County) BBSs.

See the details here...

22

22

3. SCCo Notice Areas

- SCCo ARES/RACES has four special notice categories:
 - xscperm
 - Used for notices that do not expire
 - examples: standard county procedures
 - xscevent
 - Notices posted here automatically expire after 8 days 
 - examples: Drills, public service events, incidents, other activations
 - xsctest
 - allxsc
 - Where you can write city and jurisdiction notes
 - Notices posted here automatically expire after 8 days
- Advantages
 - Limits on-air time required to check bulletins
 - Focuses readership so important information is not missed
 - Outpost only downloads a notice once

Copyright 2022 Santa Clara County ARES/RACES. All rights reserved.

23

23

4. More message suffix characters

- For this message... “XND-200**P**_R_Event Instructions”, the standard Message ID is:
 - 3-character message prefix for the originator, a hyphen, followed by a message number, followed by...
 - Outpost adds a **P** suffix if it generates the message number
- You might also see:
 - XND-200**R**_R_Event Instructions – **Resend** message; same message number and content, different suffix character.
 - XND-200**M**_R_Event Instructions – **Manually** created message (Outpost was unavailable).

Copyright 2022 Santa Clara County ARES/RACES. All rights reserved.

24

24

4. Outpost's Resend option

- Resending both Plain Text and PackItForm Messages
- **NOTE!** If you select **Resend, Same Msg ID**, then manually change the Message ID -###P to -###R for Resend. This ensures no duplicate message confusion.

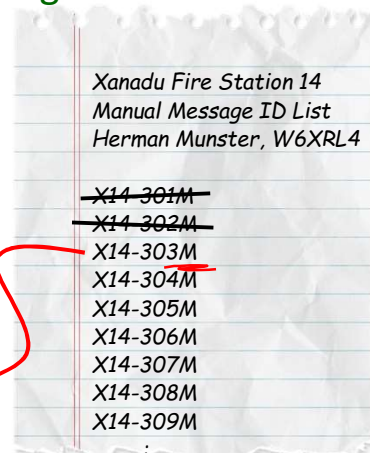

Copyright 2022 Santa Clara County ARES/RACES. All rights reserved.

25

25

4. Manually track your Message ID's

- Outpost usually manages message numbers for you.
- But without Outpost, you have to do it!
- Any piece of paper will do.
- Create a list of message IDs to use.
 - Use the '**M**' suffix to indicate this is a **Manual** message and not conflict with Outpost's "**P**" (for packet) suffix.
- When you use one, cross it out.
- Example: given this list, your next Message ID is **X14-303M**.
- For packet messages sent or received, enter the Message ID in the next message and your ICS 309 Comm Log for packet messages.

NOTE: There are other ways to keep track of your manual message IDs; the above is one method.

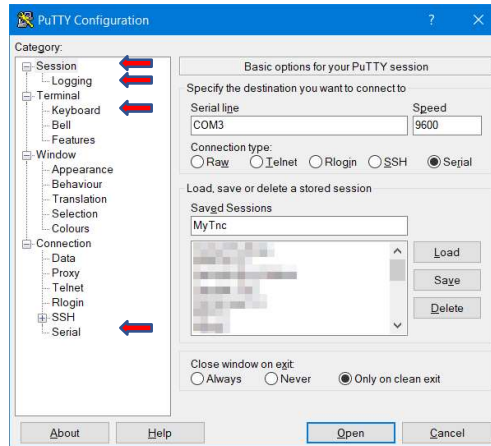

Copyright 2022 Santa Clara County ARES/RACES. All rights reserved.

26

26

5. Manual Operations – PuTTY

- Why PuTTY?
 - Good terminal emulator for manual packet work.
 - Includes a stand-alone (portable) program that is not dependent on any IT or Admin permissions to run it.
 - Good feature set that aligns with how we do manual packet.
 - Straight forward configuration.

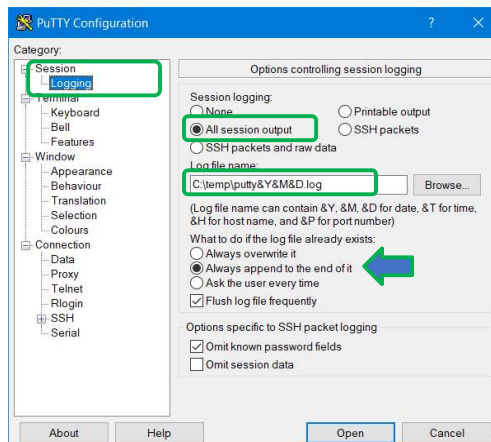

Copyright 2022 Santa Clara County ARES/RACES. All rights reserved.

27

27

5. Set up PuTTY Session Logging

5. Next, click on the **Session > Logging** tab
6. Set Session Logging to All session output
7. Set up a log file name
8. ... if the file exists: Always append to the end

Copyright 2022 Santa Clara County ARES/RACES. All rights reserved.

28

28

Why do logging at all?

- During manual operations, it is easy to loose track of what is going on.
- Logging creates a history of your manual interactions and a reference if you ever need to go back and check if you got it all right.

6. Packet USB Stick Suggestions or, could Manual Packet Ops really happen to me?

31

31

New Weekly Packet Practice Mechanism

- Introduced in August 2022
- Gives feedback within one hour, via return packet message
 - Also available at scc-ares-races.org/pacpractice
- Checks for more problems
 - Messages sent to wrong BBS
 - Messages not following Recommended Routing Cheat Sheet
 - Messages with incorrect “Practice CallSign, Name, City, Net Date”
- Form rotation includes new forms
 - OA Shelter Status
 - Allied Health Facility Status
 - RACES Mutual Aid Request
- Full history and details at scc-ares-races.org/pacpractice

32

32

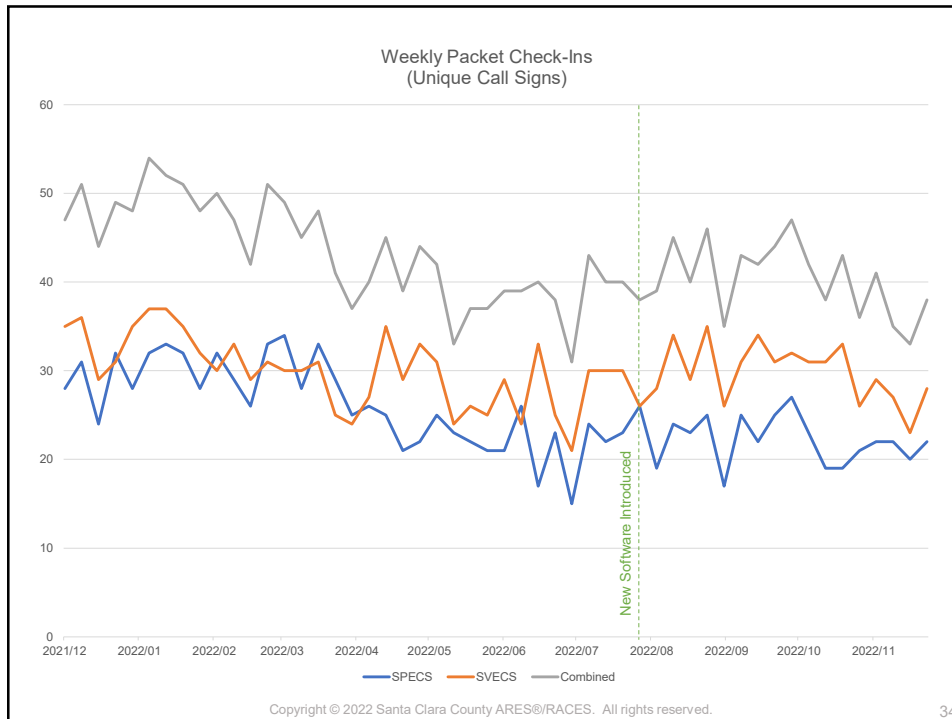

Implementation

- Entirely new software
 - Source code at github.com/rothskeller/packet
- Written in Go with minimal dependencies
 - Does not use Outpost or PackItForms
- Runs 24x7 on a hosted Linux server
 - Web site scc-ares-races.org/pacpractice always available
- Checks for new messages every hour
 - PKTMON and PKTTUE on all four BBSes
 - Checks more often during the hour before the end of the session
- Communicates with BBSes via TCP/IP with secure login
- Web site authentication delegated to scc-ares-races.org

Long Internet, Packet or Email Address

Ref: Page 27 of “*Message Handling Procedures*”

- Some long address may be sent in smaller parts
 - Allows for receiver to ask for fills sooner
 - Allows repeater to reset before it times outs
- Announce to the receiver that the address will be sent in multiple parts. Use the appropriate Proword followed by “in multiple parts”. I.E.: “**Internet Address in multiple parts**”.
- The message sender should determine when to break the long address (See page 27 for suggestions)

Forms Containing Signature Fields

- On forms with signatures fields (213RR and RACES Mutual Aid Request) simply voice ‘with signature’ if a signature is present.
- The sender is not expected to determine what the signature reads. If someone wants to see who signed the form later, the original form will be part of the records that are turned in after the event.
- The message receiver with write “with signature” on the form in the signature field.

Credentialing Program Updates

Tim Howard, KE6TIM
Revised 02-December-2022

Copyright 2022 Santa Clara County ARES/RACES. All rights reserved.

62

62

Program Updates

- *The “Credentialing Program Handbook”* was updated 11-November-2022.
- Changes based on clarifications and issues noted since the last update in January 2020.
- Observations at drills and public service events that were inconsistent with good communication practices.
- Effective for all future credential activities with some exceptions we will discuss.

Copyright 2022 Santa Clara County ARES/RACES. All rights reserved.

63

63

Program Updates

- MAC and F3 require participation in an approved drill/exercise not conducted by their own agency/city
(6-month temporary exception)
- P3 and P2 require participating in 2 Monthly Packet Practice sessions
(6-month temporary exception)
- Type 1 added new knowledge requirements (DSW, SUVs, staffing, inter-county and inter-section traffic flow)

Copyright 2022 Santa Clara County ARES/RACES. All rights reserved.

64

64

Program Updates

- P2 and P1 requires a USB Flash Drive for archiving messages/logs
- S2 and S1 requires a 2nd HT to monitor a second frequency
- Credential approved activities must use standard county ICS forms (including 205, 211, 213, 214, and 309)

65

65

Program Updates

- Equipment checks and Knowledge checks are only good for one year. This has always been the case, but it was never clear in the public documentation.
- Radio familiarity now requires:
 - Non-standard offset and CTCSS tone
 - Repeater output frequency only on simplex with CTCSS tone

Dispatching Resources

We have these communication jobs to fill

- Packet Operator at a small shelter
- Communicator for a Hospital
- Net Control Operator and scribe for a busy net

The person in charge has these 7 resources:

Bob Johnson, Sally Wren, Patrick Sommers, Betty Rothberg, Teng Wang, Aadeep Singh, Sal Cruz

Who do they select for each assignment?

73

73

Become a Credentialed Operator

1. Resource Typing

- Available communications capabilities are defined by role and capability levels
- Requests for amateur radio resources can be clearly made using the resource types

2. Qualified Operators

- Served agencies know that the resource they receive has the needed capabilities
- Amateur radio operators know what capabilities are expected from them

74

74

Become a Credentialed Operator

- The credentialing process identifies which operators have the necessary training, equipment, knowledge, experience and operational ability to perform the duties of a particular resource type.
