- Ask clarifying questions before transmitting or relaying information
 - If it doesn't make sense to you, it may be incomplete
 - Clarify timeframes on requests before relaying.

- Listen for direct traffic, not from Net Control.
 - Normally a Shadow Net is an Open Net
- Prioritize traffic to/from Principal, to avoid monopolizing the net.

Effective Shadows ...

- Are mindful of Principals' personal space.
 - If they are uncomfortable, step back.
- Ask NCO to be relieved if you cannot keep up the pace.

Shadows: What to log?

- ICS 214 (Unit Log)

 - *0822 : To all checkpoints - Principal needs to know when first runner passes each checkpoint.*
 - *1413 : Asked parking detail to close South parking lot. Confirm when done.*
 - *1433 : Parking detail says South lot now closed.*

Shadows: What to log?

- Informal/Operational message traffic
 - Logistics requests
 - Most message traffic will be informal. Very seldom will you get any formal messages.

 - Be prepared to go back through logs to answer previous questions.
 - Example: *Did the South parking lot ever get closed?*

Effective Shadows...

Problem Solving

- When what you are doing just isn't working
 - Maybe information is not passed fast enough...
 - Maybe a directed net isn't called for
 - Switch to an open net for faster information exchange
 - Someone has an open mic
 - Locate the problem by checking with everyone
 - Have two frequencies: one for normal traffic and one used for H&W. Monitor both all the time
 - Tactical calls are too long and cumbersome
 - Shorten them to something that can be expressed more quickly

Problem Solving

- You can't reach the shadow you need to talk to.
 - Ask Net Control to relay the message.

- You have a radio (or other) problem that you can't fix quickly.
 - Get word to Net Control that you need a replacement.
 - Ask a nearby operator to inform Net Control
 - Phone someone who can contact Net Control

Problem Solving

- Your principal is getting irritated with you and taking it out on you.
 - Ask for help from Net Control.
 - Ask for the Comms IC's help
 - Ask to be replaced

- The environment is so noisy you really can't hear.
 - Try a different headset
 - Use an ear bud under a headset or earmuffs

Problem Solving

- You're exhausted and just can't keep up with your principal
 - Ask for a replacement
 - Ask to have a principal that's more stationary
 - Try to anticipate this ahead of time
- Your radio isn't working correctly
 - Did you lock your keyboard?
 - Know your radio well
 - Ask another shadow for help
 - Take an extra radio, just in case

Lessons

- Have the correct Equipment
 - Headset or ear bud, no speaker mics
 - Noise cancelling microphone
 - Batteries to last entire event, check them frequently. If batteries are low you can still receive, but transmit will be affected.
- Procedures
 - Listen, listen, listen. Pay attention
 - ID with Tactical Call
 - Don't talk loudly to overcome noise
 - Ask for help from Net Control or others

Theory vs Experience

- Two parts to learning: Theory and Experience
 - Focus of the classroom is on theory/procedures
 - Experience comes at drills and public service events
- Just like lecture vs. lab in college, both are needed to master the subject

LECTURE LAB

Experience

- Shadowing opportunities range from ones with very little traffic to quite busy.
- You can let the event organizer know you are new to Shadowing and they can then assign you to an easier position.
- For drills you might be assigned to a Principal who has been a shadow themselves and can help coach you.
